

Hempsted C of E Primary School 2020/2021 Parental Feedback Results

Parental Survey September 2021

Hempsted C of E Primary School 2020/2021 Parental Feedback commentary

Parents were asked to complete parental feedback forms regarding the school's performance during 2020/21.

38 questionnaires were returned, which represented a response rate of just over 18%, a significant decrease on the response rate of the previous year. This could be largely down to the extraordinary year resulting from the Global Covid 19 Pandemic.

The very positive results of the survey this year are consistent with the results of previous years

The 12 questions from the online OFSTED Parent View are included in Hempsted's Parental Feedback Questionnaires.

Results of the survey have been captured graphically as percentages of responses

The results from the previous year have been included to illustrate year-on-year change

The feedback form also provided an opportunity for parents to write comments, of which a number did. Many of the comments provided evidence to support the scores. All comments were reviewed by the Head Teacher and, where appropriate, responded to.

Note 1: Some of the respondents did not provide responses to all of the questions

Note 2: The percentage results have been rounded to two decimal points.

There were 25 questions included in the questionnaire of which;

- 23 used an indication on a scale. This ranged from "strongly through to agree" to "strongly disagree" and, "don't know".

- 3 of these 23 questions are not applicable this year due to Covid 19 (School trip / theme weeks and Friends events) so for all respondents these have been marked as N/A on all returned questionnaires.

- Of the remaining 3 questions from the 25, these were selectable as 'yes', 'no' or 'N/A' answers.

Strengths

Questions with '**overall agreement**' scores (where 'strongly agree', 'agree' and 'yes' have been combined to show a positive outcome), were categorised into the following percentage bands:

In the band 90%-100%, there were 20 questions who's outcome was **overall agreement** (18 of which were 95% or above).

12 of these 18 questions receiving an overall agreement score of 100% this year.

Those were questions 1, 2, 4, 5, 6, 9, 10, 11, 16, 20, 23, 25.

In the band 80-90% there were 0 questions answered who's outcome was overall agreement

In the band 70-80% there were 0 questions answered who's outcome was overall agreement

In the band 60-70% there were 0 questions answered who's outcome was overall agreement

In the band 50-60% there were 0 questions answered who's outcome was overall agreement

100% of respondents stated that they would recommend Hempsted School to another parent.

The results were consistent with previous excellent results.

Areas for improvement

There was 1 negative response to the questions relating to whether the school deals with bullying effectively (15), and with how well the school is managed (12). However, the written comments by this respondent contradict the ticked response with several other contradictory comments in the return. For the other negative replies (2 in total re questions 13, & 14) they accounted for less than 8% weighting for each question. In other words, these questions scored over 92% positive replies from other respondents. All of these negative replies were contained in the same return / questionnaire.
